Laboratory Values Form

Please complete and Check your posted numbers for EXACT Accuracy or send copy sheets

It is essential that I have certain laboratory values that your doctor should have performed on you within the past six months. Please have your doctor send you copies or if you keep copies of your laboratory work, copy the correct values in the appropriate sections on this "laboratory values form" and send it to me. It is important that I have as many as possible of these values to comprehensively evaluate your specific blood chemistry with the chemicals (drugs) you are presently taking.

MAKE SURE THE VALUES ARE COPIED CORRECTLY AND ACCURATELY

Comprehensive Metabolic Panel Laboratory Values:

Creatinine ()

Sodium ()

Potassium ()

Chloride..... ()

Calcium ()

Glucose ()

Albumin ()

Alkaline Phosphatase...()

BUN (Urea Nitrogen),,,,, ()

CBC Laboratory Values

Red Blood Cell Count...()

Hemoglobin..... ()

Hematocrit ()

MCV ()

MCHC ()

RDW ()

Lipid Panel (if on Cholesterol medication) Laboratory Values:

Triglycerides ()

Cholesterol, TOTAL ()

HDL Cholesterol..... ()

LDL Cholesterol..... ()
